

Project Planning Phase Burndown Chart

Date	24 October 2022
Team ID	PNT2022TMID29329
Project Name	Project - DemandEst - AI powered Food Demand Forecaster
Maximum Marks	2 Marks

Burndown Chart: (2 Marks)

A burndown chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
